

MEET TEAM VACCINE **OUR MISSION: MAINTAIN YOUR** **HEALTHY CONDITION.**

March 22, 2016

Dear Participant:

Getting routine vaccines is your best shot at staying a step ahead of common illnesses like the flu and pneumonia.

We want to make it as easy as possible for you and your family to avoid preventable illnesses. CVS Health and the IATSE National Health & Welfare Fund are pleased to let you know that **routine vaccines are now available at any CVS/pharmacy* near you.** Be sure to call ahead for availability and to make an appointment (if necessary). You will also need to bring your prescription card and photo ID. **Best of all, there's no cost because you're covered 100 percent by your plan.**

TOGETHER WE CAN HELP PREVENT COMMON ILLNESSES BEFORE THEY START. Visit a CVS/pharmacy near you to get vaccinated today!

Sincerely,
CVS Health and the IATSE National Health & Welfare Fund

*Vaccines are available when immunizing pharmacist or MinuteClinic® practitioner is on duty, while supplies last. Most vaccines require a prescription (except for the flu shot).

[+Copayment, copay or coinsurance means the amount a participant is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.]

[**The vaccines listed above are generally covered under the Affordable Care Act by non-grandfathered health plans and health plans sold on an Exchange by Qualified Health Plans or QHPs, and typically do not require cost sharing if provided by an in-network provider, consistent with specified dosage limits and satisfaction of age and other vaccine specific requirements. Other restrictions may apply. Check with your health plan if you have any questions about your benefits.]

Your privacy is important to us. CVS/caremark employees are trained regarding the appropriate way to handle your private health information.
