

It's flu season.

Get protected today at any pharmacy in your network.

We want to help you stay healthy this winter. That's why flu shots are available in more than 68,000 convenient locations, including CVS Pharmacy®.* We also offer the vaccines to prevent common illnesses at 100% coverage by your plan**, No copay+, No cost to you. Just bring your prescription card and valid photo ID.

- **Preventive Care Vaccines for Adults**
Zoster (Zostavax), Tetanus, Diphtheria Toxoids, Hepatitis A & B
- **Preventive Care Vaccines for Children (birth to age 18)**
Measles, Mumps, Rubella, and Varicella
- **Preventive Care Vaccines for Children and Adults**
Pneumonia, Hepatitis A, Hepatitis B, Human Papillomavirus, Varicella, Measles, Mumps, Rubella, Meningococcal, Tetanus, Diphtheria, and Pertussis

Be sure to call for availability and to make an appointment, if needed.

*Vaccines are available when immunizing pharmacist is on duty, while supplies last. Most vaccines require a prescription (except for the flu shot).

**The vaccines listed above are generally covered under the Affordable Care Act by non-grandfathered health plans and health plans sold on an Exchange by Qualified Health Plans or QHPs, and typically do not require cost sharing if provided by an in-network provider, consistent with specified dosage limits and satisfaction of age and other vaccine specific requirements. Other restrictions may apply. Check with your health plan if you have any questions about your benefits.

+Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.
