Announcement Regarding Further Relief for Participants in the IATSE National Funds due to the COVID-19 Pandemic

Extended Relief for Health & Welfare Plan A Participants for January through March 2021

Health Plan A

As you are aware, the Board of Trustees of the I.A.T.S.E. National Health and Welfare Fund granted eligible Health Plan A participants credit for 10 days of work per month for March through December 2020 to assist them in remaining covered.

We are writing to let you know that, at their recent Board meeting, the Trustees further agreed that Plan A participants who were enrolled in Plan A coverage on March 1, 2020 **and** received employer contributions to Health Plan A in 2020 will receive an additional crediting of 10 days of work for January, February, and March 2021, to assist with continued eligibility.

The Trustees also extended these additional days to Plan A participants who received employer contributions to Health Plan A in 2020 **and** enrolled in Plan A coverage on April 1, May 1, June 1, or July 1, 2020. These participants will also receive an additional crediting of 10 days of work for January, February, and March 2021.¹

We hope these changes help assure you that the Board of Trustees is continually monitoring your needs during this unprecedented time. As more changes occur, we will continue to communicate with you. Check our website, www.iatsenbf.org, frequently for updates.

Sincerely,

A handwritten signature in black ink, appearing to read "Anne J. Zeisler".
