Important information regarding the I.A.T.S.E. National Health and Welfare Fund

Dear [MEMBER NAME],

Starting April 1, 2019, changes are being made to the three tiers that determine the amount you pay for your medications. For most participants, the only change you will see is a new name for each of the tiers. Some participants may see their medication(s) moved to a different tier. This change applies to Plans A, C-1, C-2, C-3 and C-4.

What is changing

The types of drugs in each tier will change.

Current tier name	Will change to:
1. Generics	1. Generics
2. Single-source brands	2. Preferred
3. Multi-source brands	3. Non-preferred

For some participants, this may result in their medication(s) moving to a new tier. If your medication is affected by a change in tier, you will receive another letter explaining which medications are affected and what the preferred option will be.

What is not changing

The copays* for medications within each tier will not change. For example, the copay for medications on the current single-source brand tier will be the same as the copay for preferred tier medications starting April 1. For most participants, their medications will remain on the same tier and their copay will not change.

If you have questions about your plan or medication costs, visit **Caremark.com** or call the Customer Care number on your participant ID card.

Sincerely,

Your Customer Care Team
CVS Caremark

*Copay, copayment and coinsurance means the amount a company or participant is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.
